HOUSE FEUD SEEN OVER CUBAN WARNING

House Approves \$1.4 Billion Cut In Overseas Aid

Turns Deaf Ear On JFK's Plea; Bill Goes To Senate

WASHINGTON (AP) — The House has turned a deaf ear to President Kennedy and approved a foreign aid bill that would slash spending overseas a massive \$1.4 billion.

Not a voice was raised to support the President's contention that the cut in this year's appropriations "poses a threat to free world security."

With anti-Cuban feelings running high, three amendments aimed at choking off shipments to the Castro government got shouting votes of approval.

The appropriations measure now goes to the Senate, which has made it a practice to restore sizable portions of House cuts in foreign aid. As for the Cuban amendments, both the Senate and the President would have to approve before they could become law.

The House leadership, sensing sentiment for even deeper cuts in the \$5,956,852,000 bill, decided to forego a floor fight to salvage the funds axed from the measure by the House Appropriations Committee.

The bill was waved to the Senate on a roll call vote of 249-144. The measure drew the support of 174 Democrats and 75 Republicans.

Youth Loses Fight Against Loss of Legs

Ronald Dively, 21, of RD 4, Salem, injured in an auto accident two years ago, is recuperating in Youngstown South Side Hospital following the amputation of both legs Tuesday.

Dively was injured June 29, 1960, on Rt. 30, south of Lisbon, when a truck struck the tractor-towed farm wagon on which he was riding. The wagon tongue impaled him, paralyzing him from the waist down.

A native of West Virginia, Dively was employed on the William Kimberling farm west of Lisbon, when the accident occurred.

Numerous county organizations have conducted fund drives to help defray the youth's medical expenses.

The Lisbon Veterans of Foreign Wars Auxiliary, one of the most active organizations in the fund campaigns, had been in the process of raising money to buy Dively a set of braces for his legs to enable him to walk again when word of the amputation was received from the hospital.

Other bidders were Smith's Garage and Bud Shaffer Ford. Smith's bid left a balance of \$1,450 and Shaffer's, \$1,333.18.

Contracts for other bids submitted Wednesday will be awarded by the city board at a later date, Mayor Dean Cranmer said.

The other bids were for installation of a sanitary sewer line in Hillsdale and for a dump truck.

Refused To Admit Negro to Mississippi U.

Contempt Charges Filed Against University Officials

MERIDIAN, Miss. (AP) — The University of Mississippi desegregation crisis shifts to this city of 50,000 today as a federal judge holds a contempt hearing for three top officials of the 114-year-old institution.

The Justice Department, moving swiftly after Gov. Ross Barnett personally refused Thursday to admit Negro James H. Meredith to the university, bypassed Barnett and asked U.S. Dist. Judge Sidney Mize to cite the school's leaders for contempt.

Barnett, acting on authority

granted him at the last minute by the State College Board, flew to Oxford from Jackson and personally acted as registrar.

Three federal courts had ordered Meredith's enrollment.

Meredith's plans were not disclosed. A Justice Department spokesman said he may not return for several days.

Ordered to appear before Mize were Chancellor J. D. Williams, 61; Dean Arthur B. Lewis, about 58; and Registrar Robert B. Ellis, about 40.

In Washington, Justice Depart-

ment information officer Edwin O. Guthman said government attorneys would seek a similar contempt citation from three judges of the 5th U.S. Circuit Court of Appeals who are hearing another civil rights case at nearby Hattiesburg.

University officials claimed they had turned over their power to the 64-year-old governor who vowed to go to jail before seeing the university integrated.

But the Justice Department postponed a showdown with Barnett by omitting his name in its contempt proceeding.

Previous court orders that Meredith be enrolled were directed at university officials, Guthman said. "Our position is that they still have that responsibility," he said.

A Justice Department spokesman said the government's position is that Barnett actions "have no legal effect."

The Justice Department disclosed contents of a 400-word telegram Aug. 13, Gen. Robert Kennedy sent to the 13 members of the board trustees, the chancellor, the dean and registrar.

The telegram said neither Meredith nor the attorney general had been able to get any commitment from university officials that Meredith would be registered. It recited the legal steps in the case and the government's position, and advised the officials that the department's purpose was to see court orders were obeyed "peaceably."

Meredith, 29, an Air Force veteran seeking to transfer from Jackson State College for Negroes, was accompanied to Oxford by three U.S. officials, including St. John Barrett, second U.S. assistant attorney general in charge of the civil rights division, and Chief U.S. Marshal James McShane, who was with runaway spy Robert A. Soblen when he stabbed himself on an Israeli airliner returning him to the United States.

The officials flanked Meredith as he quietly walked to the university alumni building, where Barnett waited. Some 50 highway patrolmen formed a human barrier to keep back several hundred students. Some booed. Meredith smiled, then entered the building.

Details of what transpired in Meredith's 23-minute face-to-face encounter with Barnett were not disclosed. But Barnett, in effect, said "No," Meredith left.

While the conference went on, about 2,000 students—some of whom had waited at the wrong building—gathered outside. They roared the famed Ole Miss fight cheer, "Hotty, Toddy!" They shouted, "We Want Ross! We Want Ross!"

Meredith reappeared, bringing on a chorus of boos. Some students cursed. Others laughed. The slightly-built Meredith, father of two, smiled faintly. He got back in the car and drove away.

As the auto left, the throng raced from behind the cordon of patrolmen, and pressed near the car. None was seen hitting or touching the auto.

The crowd broke up soon afterward.

IBOP To Seek Wage Hike, Fringe Benefits

The International Brotherhood of Operative Pottery said today it will seek "A substantial wage increase and improved health and welfare benefits" when it begins negotiations with dinnerware and chinaware manufacturers on new contracts.

IBOP officials at their East Liverpool headquarters said the request for the wage boost and fringe benefits were among proposals drafted by the generalware wage policy contract negotiating committee in a three-day session last week in Cincinnati.

The union did not specify the amount of the wage increase it will ask nor did it reveal any other proposals to be submitted to the manufacturers as a basis for

Addresses 10,000 Pennsylvania Dems

JFK Slashes GOP In Campaign Talk

HARRISBURG, Pa. (AP) — President Kennedy is back in political fighting form and ready to follow up his first 1962 campaign sortie into Pennsylvania with another into West Virginia.

Kennedy slashed at the Republican record and called for strengthened Democratic support in Congress before 10,000 partisans Thursday night.

The American people, he said, will determine in the Nov. 6 election "whether we are to step up the progress already made or return to deadlock and drift."

It's been more than a year and a half since Kennedy has done any real, out-in-the-open campaigning. Obviously he hasn't lost his touch.

He started in as soon as a helicopter from Washington lowered him onto the Harrisburg airport. It was chilly and cloudy in the late afternoon, but the President had a sunny smile for a welcoming crowd that the state police estimated generously at 3,000.

He did some handshaking and made a little talk.

"Eighteen months ago," he mused, "I used to do this six times a day, but I haven't done it for a long time, and we start today, and most appropriately in Pennsylvania, on the fall campaign of 1962."

The President figured that Pennsylvania support made possible his nomination and election to the presidency—he carried the state by 116,000 votes and the country by 113,000.

Andrew T. Hatcher, acting White House press secretary, said Kennedy's next political port of call will be Wheeling, W.Va., next Thursday. It was West Virginia which gave Kennedy a key victory in the primary along with its electoral votes in the general election.

Much of the time between now and Thursday, Kennedy will be relaxing with his family at Newport, R.I. He flew there immediately after his appearance at the Democratic fund-raising rally here.

The Democratic State Finance Committee said it sold more than 10,000 tickets at \$100 a plate and will make more than a million

Overpass Okay Seen Thursday

Officials To Review Plans for Project

Final approval of W. State St. overpass is expected Thursday when city officials meet at 10 a.m. with state and federal government representatives in the City Hall Council chambers.

The meeting was arranged to review all aspects of the project and give final approval to plans presented by Rackoff Engineers of Columbus, Mayor Dean Cranmer said.

"It will be approximately three weeks after the meeting before arrangements are made to advertise for bids," Mayor Cranmer stated. "The target date for awarding the contract is the middle of December."

Attending the session will be the Federal Bureau of Public Roads; Ohio Highway and Public Bridge and Road departments; City Engineer F. S. Barckhoff Jr.; Utilities Supt. Aubrey Hayes and Mayor Cranmer.

A public meeting on the overpass will be held in City Hall Council chambers Oct. 19 at 2 p.m., Robert Jenkins, planning and design engineer of Division 11, Ohio Highway Department, said.

Members Want Tough Policy On Arms Buildup

Dispute May Cause Action on Measure To Be Delayed

WASHINGTON (AP) — House leaders sought quick approval today of a resolution warning Havana and Moscow against any military buildup in Cuba that endangers the United States.

But some members insisted on a chance to argue for tougher language than the Senate approved Thursday in the carefully worded resolution now awaiting House action. This could mean a delay until Monday.

The determination of objecting members was increased by word from official U.S. sources Thursday that the Soviet Union has stepped up arms deliveries to Cuba. Since late July, officials said, 65 to 75 Soviet ships have arrived at Cuban ports, about half of them carrying cargoes that included military equipment and personnel. The number of Soviet military personnel now in Cuba was put at 4,200.

These sources said the Castro regime has at least one late type MIG jet fighter as well as 60 older ones. And, authorities here said, 12 short-range surface-to-air missile sites have been established in western Cuba, many on the northern coast opposite the United States.

Rep. John R. Pillion, R-N.Y., who wants Congress to authorize a naval blockade of Cuba and back a demand that the Castro government expel all foreign troops said he expects to object to any shortcuts.

Pillion said the new information about the Soviet military buildup in Cuba "of course makes it more important than ever that we adopt a stronger resolution."

He has criticized the one before the House as "vague and indecisive."

Chairman Thomas E. Morgan, D-Pa., of the House Foreign Affairs Committee said he has no objection to an agreement allowing ample time for debate on the resolution.

However, Morgan and other leaders are known to hope the House will pass the Senate-approved resolution without amendments that would require a conference with the other chamber. They would be happy also if the House equals or even exceeds the agreement the Senate showed by approving the resolution 86 to 1.

House managers of the resolution had considered seeking quick approval Thursday in the wake of the Senate action. But this possibility vanished when Pillion served notice he would object.

In related actions Thursday night before passing the foreign aid appropriations bill, the House approved amendments to halt aid to countries which allow their ships to carry goods to Cuba.

These amendments would have to be accepted by the Senate and by President Kennedy before they could become law.

The most restrictive—denying foreign aid to a country whose ships carry trade of any kind to Cuba—was offered by Rep. Walter Rogers, D-Tex. Rep. John J. Rooney, D-N.Y., urged Rogers unsuccessfully to withdraw it. "It might cause World War III," Rooney said.

The wording before the House declares the United States will not tolerate a military force in Cuba capable of endangering U.S. security and will use force if necessary to resist any force used to advance communism in this hemisphere.

The wording was worked out in an unusual three-way collaboration among the Senate Foreign Relations and Armed Services committees and the House Foreign Affairs Committee. Its terms

with a worried doctor sitting by his side and feeling his pulse? Nonsense? Sentimental trash!

If you painted an honest picture of a patient at home today it would show his loved ones departed. Instead of a worried doctor at his bedside, there'd be a gabby vacuum cleaner salesman reaching for the patient's pocketbook.

These dismal thoughts are inspired by a recent personal experience.

Stricken by my semiannual attack of gouty arthritis—it usually hits at the onset of spring and autumn—I crept home with the usual symptom—a feeling that a wild porcupine was imprisoned in my left foot and was trying to dig its way out with 10,000 pointed quills.

Gratefully I dosed myself with medicine and sank into slumber. The next morning the foot was even more swollen and painful.

"I am afraid I'll be a nuisance to you for the next couple of days until I get this porcupine out of my foot," I told my wife gallantly. But Frances said no, I wouldn't be much of a bother as she would not be there. She and Tracy, our daughter, had to spend the next two days shopping for school clothes—absolutely had to.

They laid out a supply of fruit juices, pills, newspapers and books by my bedside and left me alone with my gouty foot and Lady Dottie, our cat.

I tentatively moved my wounded foot under the sheet, and Lady Dottie, thinking it was a mouse, immediately pounced on it. Wow!

The phone rang in the next room. I hobbled out to answer it. Wrong number. On the way back, thinking I was playing a game, the cat leaped again on my bad foot. Wow!

As soon as I was back in bed, the doorbell rang. I hobbled out. "Can Tracy come out and play?" asked the little boy down the hall. Muttering remarks little boys shouldn't hear, I slammed the door and started back.

Lady Dottie had my foot in both her paws. Wow!

So it went for two days.

Exhausted, I arose on the third morning, dressed and put a soft shoe on my throbbing foot.

"But you're not really well yet," objected my wife. "Don't you think you should stay home and get a few days more rest?"

"Better in a railroad terminal I should be," I told her. "Better a man should lie down on his office floor, where he can at least die in peace, surrounded by his enemies."

Sure enough I went back to the office, sat down in a swivel chair, and put my foot safely in a pulled-out desk drawer, the pain began to go away.

Never go home when there's anything wrong with you. It's no place for a sick man. Too much going on there.

Massachusetts Reserve Champ

They're predicting that Edward M. Kennedy will roll over his Republican opponent for senator from Massachusetts in the November election the same way he crushed his Democratic opponent in the primary on Tuesday.

They may be right. The voting in Massachusetts has turned into a clinical demonstration of what pays off in politics. Candidate Kennedy has a magic combination of youth, good looks, money, organization and family connections. His primary opponent, Edward J. McCormack Jr., no slouch in appearance himself, not yet middle-aged and a political insider by virtue of being state attorney general, lacked money and organization. He was snowed under. The McCormacks are all right, but they're not Kennedys.

In the Republican primary, an able candidate of mature years, Rep. Laurence Curtis, running for re-election, was licked by another inexperienced youngster, George Cabot Lodge, son of former U.S. Sen. Henry Cabot Lodge, who ran with Richard Nixon on the presidential ticket in 1960. Rep. Curtis also had an insider's advantage, with more than 30 years' experience in city, state and national office. He never had a chance.

There is a market in politics for new faces, especially if the faces are young and handsome. Political experts discussed with cold objectivity the sex appeal of the candidates in Massachusetts as if they were trying out for the movies. They said the women's vote would make Kennedy a shoo-in.

The argument that candidates should run on merit, not on famous names, fell flat. The complaint that candidates were spending too much money fell flat. The claim that the public owed support to officials who had served it well in the past fell flat.

By hindsight, the youngest and some think the most eye-appealing of the Kennedys was unbeatable. Likewise by hindsight, Rep. Curtis didn't have a chance to beat the youngest of the equally famous Lodges, who also has family fame, youth and good looks but may run a little short of money and organization when he runs against the Kennedy fortune and its one-for-all-and-all-for-one doctrine.

If Teddy Kennedy can make it big in Massachusetts in November, the Kennedy family will have a reserve champion even more redoubtable than the redoubtable Bobby, whose political accomplishments do not yet include being a winning candidate.

By DAVID LAWRENCE

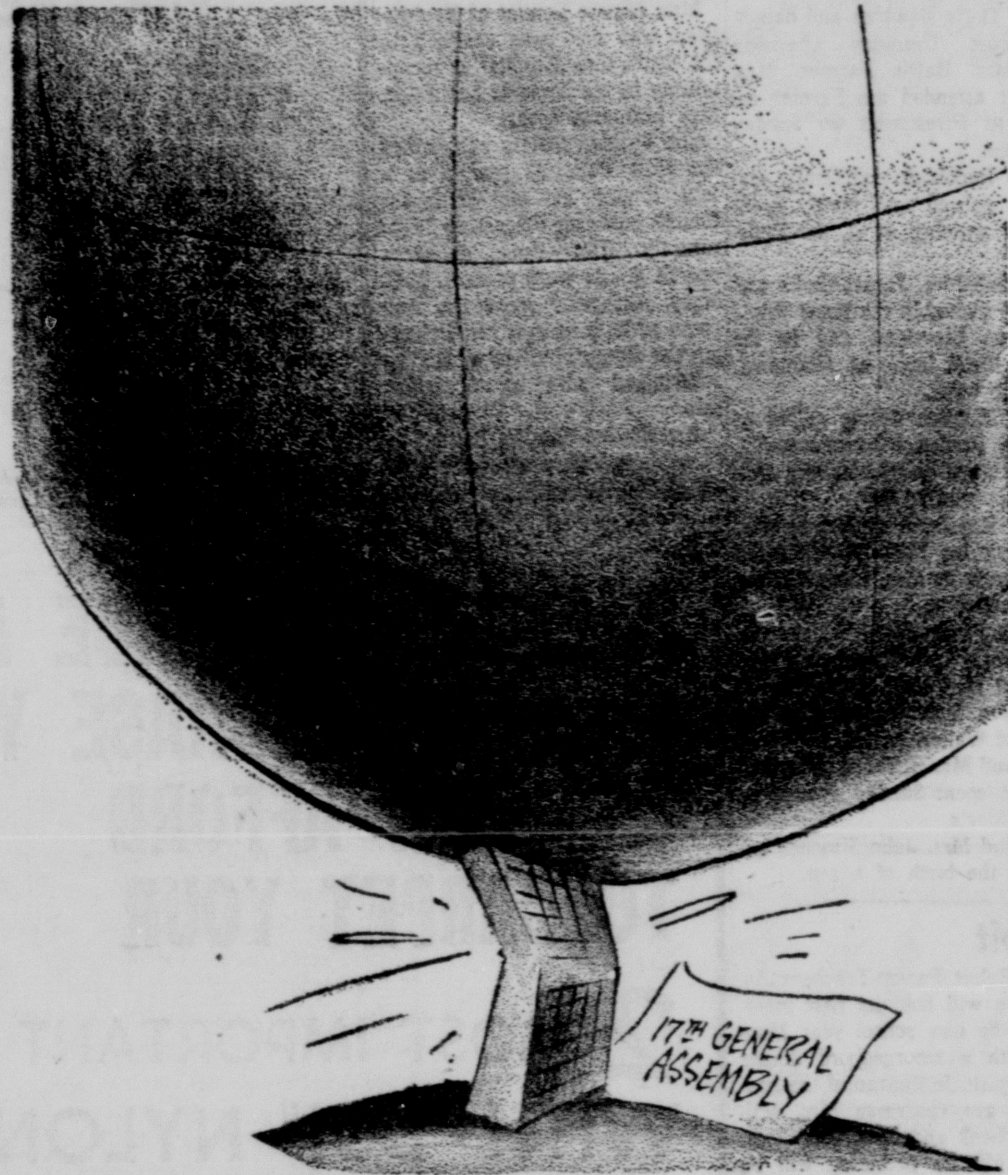

Less than 50 per cent of the eligible voters went to the polls in Massachusetts on Tuesday to vote in the Democratic and Republican primaries for United States Senator.

Why don't more people vote in the primaries — and why do they let the political machines vote and virtually control the

"The Meeting Will Come to Order --- I Hope!"

Firmness Without Intervention

The Kennedy administration apparently has made Chester Bowles its mouthpiece on Cuban policy. In a speech at Pittsburgh at the beginning of the week, Bowles denounced extremists and said those who demand military intervention are "expressing a frustration which all of us feel."

"Such men," he declared, "are persuaded that life is based on power and that in the use of power anything goes. Then this summation: 'If under present circumstances we were to follow the urging of the extremists and attack Cuba, we would do irreparable harm to the cause of freedom.'"

This is a tricky, dangerous line of reasoning. It assumes there is no other way to assert power than to attack. Then by rejecting the possibility of attack it seems to reject the possibility of doing anything at all to counteract the military intervention of

the Soviet Union in Cuba.

It would not be necessary to attack Cuba to oppose Soviet intervention.

It would be necessary only to demonstrate that the United States is in no mood to knuckle under the intervention; this could be done by naval blockade.

Whether the blockade was assisted by other American states would be their decision to make, but there is reason to believe many would want to help. And there is every likelihood that if a blockade were in effect there would be cessation of Cuban cargo-carrying in the ships of U.S. allies.

Mr. Bowles is President Kennedy's special adviser on African and Asian affairs. It is not clear how he gets into the Cuban act. It's clear, though, that his line of reasoning is specious. The United States can be firm about Cuba without going to war.

The Very Idea Of the Thing

Whenever it has happened, down through the years, the contest for the America's Cup off Newport has left most of us gape-mouthed and pop-eyed. This time in the contest between Weatherly, the American defender, and Gretel, first and only Australian sloop to challenge, our tonsils are wind-burned and our eyes like organ stops.

These beautiful craft cost so much to build

Speed Limits

The anguished lament of a Salem mother who lost two children when they were struck by a skidding automobile on a Salem Township road this summer was published on this page two days ago.

Anyone who read her plaintiff appeal for safe driving on the part of all motorists was touched by Mrs. William Kalbfell's expression of loneliness for David and Frank, who would have marked their 12th and sixth birthdays this week had they lived. A car out of control on a country road snuffed out their lives and injured another brother and a sister.

According to the Highway Patrol, the car was not speeding. It was within the 60-mile-an-hour speed which is permitted on all Ohio roads, UNLESS reduced speeds are made law by petition of township officials. For example, a 35-mile-an-hour speed limit exists in the Depot Road south of Salem because residents there petitioned for it and got it.

All roads and highways are potentially dangerous and we agree with Mrs. Kalbfell that slower speeds ought to be mandatory in particularly hazardous areas.

Little Starlings

By Truman Twill

"Don't cry, mommy's little astronaut. Grow up to be a fine, strong starling and they'll shoot you to Venus."

Doting mothers used to comfort us with the hopeful thought we could become president and commander-in-chief of the armed forces, though they never hit that angle hard enough to make the job sound attractive.

If we were little girl tots instead of little boy tots they gave us a platter of palaver about marrying millionaires, meaning in plain words we would not for goodness sake make the same mistake mommy made and get stuck doing our own housework.

Always the idea was a no-return ticket away from frustration and disenchantment. Or if our parents were still young enough to retain the bright hopes of their own childhood they tried to convey belief in an expanding universe.

It was escapism, that's what it was.

The bondage of reality had become unbearable. No mother ever cooed over her bundle of joy that it would grow up to be household drudge like its overworked ma.

The least a mother or father could hope for a child in the pre-astronaut era was a secure niche in the dead-ended corridors of middle-class security. But now there's something beyond and above — something out there.

A kid can be an astronaut. At first it will be boy kids but eventually it will be

and operate that only multimillionaires and syndicates of wealthy men can think of racing them. The races themselves are comprehensible only to those in the know. Ordinary spectators would not understand what they were looking at even if they could see; the boats are frequently out of sight.

Yet because the whole thing began in 1851 when a schooner named America brought home a cup from Britain and has been going strong ever since, Americans who wouldn't know a coffee-grinder winch from a cornshucker get into the spirit of the occasion and actually care who wins.

The Australian challengers this year are a hearty lot and have found a following in this country, though the most popular challenger of all time was the late Sir Thomas Lipton, who spent at least a million dollars apiece on five challenges between 1899 and 1930 with five supersloops called Shamrock.

The very idea of the thing is what enthalls us — not the race but the idea of carrying on a contest that few people understand and fewer people can see. It's a chance to learn how the other one-millionth of one per cent of this word lives — fascinating!

What does a rooster have to crow about when it's the hens that lay the eggs?

"Father knows best" is something that nobody else in the family knows.

Big wheels in business don't get that way rolling around at night.

girl kids too. Bet on it that the sex which owns most of the earth will not muffle its chance to dominate outer space.

Funny thing, that earthlings talk about "men from Mars" and "men from outer space" but never mull over the, ummm, possibilities of women from Mars and elsewhere. It just could be that surprises are in store all around when we earthlings get out yonder.

The key to the whole mood is escapism. We're anxious to find a way to put the Earth behind us as other creatures will be to put their planets behind them. The old saying that you never appreciate home until you leave it is going to be burnt in with a vengeance by the after-blasts of the interplanetary rocket trains that will be leaving launching pads morning, noon and night.

They won't take us mature specimens because we're what the escape artists are hoping to get away from.

Good luck, young travelers, whoever you are. We've had a dream of our own. We'd lie on our backs and stare at the night sky, wondering, musing, full of thoughts we couldn't express.

We would take wing and fly — up and away and into infinity. We would be free of the earth.

Don't cry, mommy's little astronaut. Grow up to be a fine, strong starling and one day we'll shoot you where earthlings always have longed to be.

By VICTOR RIESEL

Someday the Department of Justice will disclose what it knows of the U.S.S.R. blackmail operations inside the U.S. When this

story finally breaks it will be revealed that the agents of Chairman Khrushchev have attempted to infiltrate the private lives of our most prominent national leaders. No one of them has been immune — not the President of the United States nor those who might become president.

One such Soviet espionage cell, exposed by the Justice Department and the FBI the other day, had among its special assignments the accumulation of information on Gov. Nelson Rockefeller and Richard Nixon.

It was a most ambitious operation. In addition to blackmail, this special Soviet cell was under instructions to capture a congressman. This could be done by blackmail or by combining blackmail with the selection of a young politico and then nursing him from some local post into the Congress of the U.S.

Once in Congress the political leader could be threatened into attempting to penetrate the Federal Bureau of Investigation.

I report this as absolute fact. It is the full story behind the operations of the cell made up of two United Nations officials — Yuri A. Mishukov, until recently translator in the U.N. Office of Conference Services and Yuri V. Zaitsev, also until recently a political affairs officer in the Political and Security Council Affairs Department.

ALL THROUGH their U. N. employ they were Soviet espionage agents. The FBI knew it. These were the men who approached a young Republican lawyer, Richard Allen Flink.

The 27-year-old Flink, who went immediately to the FBI, told me the Soviet agents were especially interested in the Republican party and its leaders. Flink became a voluntary undercover agent for the FBI. The spies wanted to know all about the internal stresses and forces in the GOP. They were persistent in their pursuit of the smallest detail which might affect the political careers of Rockefeller and Nixon.

Early last June they became interested in the Conservative party, Inc., development in New York. Flink told me that Mishukov asked the voluntary undercover man to meet him in Churchill's Restaurant in lower Manhattan. Flink was asked for a detailed report on the new party. Flink said he's have it in a few weeks.

primary elections?

The answer isn't to be found in the figures themselves.

Thus, in Massachusetts only two years ago the then Sen. Kennedy polled 1,487,174 votes against Richard Nixon's 976,750 in the presidential race.

In the same election, Sen. Leverett Saltonstall, Republican, won reelection with 1,358,556 votes—nearly 400,000 more than Nixon. But even the Democratic nominee for the Senate, Mayor Thomas J. O'Connor of Springfield, polled 1,050,725 votes, which is 244,000 more votes than both Teddy Kennedy and Eddie McCormack together received in

the primaries this week, as their combined total was only about 806,700 votes.

In the Republican primary, the situation was even more striking. For, while George Cabot Lodge defeated Rep. Laurence Curtis by about 47,500 votes, the total Republican vote was only about 442,800.

THIS MEANS that only 33 per cent of the vote cast in November 1960 for the successful senatorial nominee—Sen. Saltonstall—was recorded at the polls this week by both Republican aspirants. In the Democratic primary this year the vote cast was equal

to about 77 per cent of what the unsuccessful senatorial nominee polled in 1960.

The comparisons between the primary contests in 1960 and 1962 are even more revealing. Two years ago there was another spirited race for the Democratic senatorial nomination, and the vote was divided among three candidates. All of them together polled 558,700 as compared with 806,600 for both the Democratic nominees this year. Yet, in the final election for senator in 1960 there were 1,050,725 Democrats recorded, and this wasn't enough to win Sen. Saltonstall was reelected with 1,358,556 votes. He had been

unopposed in the primaries.

The Massachusetts results in the primary election of Tuesday show that neither party picked an experienced legislator as its candidate for the Senate. The Republicans passed over Mr. Curtis, 69, a man of maturity and good judgment who is serving his fifth term in the U.S. House of Representatives.

If the previous system of election of U.S. senators by a majority vote of the legislature had been in effect, probably none of the candidates in either party in Massachusetts this week would have had a chance except Mr. Curtis for in past history only persons with long and creditable service in the House of Representatives or perhaps at times the governor of a state would have been considered as a probable nominee by either party in the state legislature.

THE SYSTEM of direct election of U.S. senators, and nomination either by primaries or nomination to be one that is readily manipulated by political machines. The people generally don't bother about primaries but the machine politicians do.

Likewise, the candidate with the backing of labor unions or minority groups—which means large campaign funds—has a better chance today to win a nomination and election than a man of real ability and independent judgment.

Election of senators by popular vote has resulted in a deterioration in the quality of the legislators in the upper house because many of them, even with a desire to do a good job, find themselves handicapped by the activities of pressure groups back home. It isn't a Democratic system today, but a ward politician's system.

The contest in Massachusetts now is between George Cabot Lodge, Republican, aged 35, and Edward M. (Ted) Kennedy, aged 30.

The name Kennedy is expected to be a big vote-getter in Massachusetts for a long, long time.

The first Henry Cabot Lodge—great-grandfather of the latest nominee—was in the United States senate from 1893 to his death in 1924.

IT IS EXPECTED now that young Kennedy will win the race in November. The power of the Democratic machine which supported him in the primary will be in full swing in the final election. The Democratic party's argument will be that a defeat would mean a repudiation of the Kennedy administration in Washington, and that a victory would be a vote of confidence. But throughout the country, unless the Democrats win generally, a Massachusetts victory for young Kennedy might be interpreted as meaning that the administration's influence swung the contest. Even more talk would be heard about a "Kennedy Dynasty," and it could bring about a widespread discussion that would not be helpful to the President's own reelection chances in 1964.

RedSpiesAmassData on 'Holidays'

TWO DAYS before his deadline, he read this column's full story on the Conservatives. He retyped it. He showed it to his FBI contact. The bureau approved it.

Then in a Brass Rail restaurant in Brooklyn, Flink turned it over. Three weeks later Zaitsev told Flink it was a "succinct, clear and good job."

Thank you, Comrade Zaitsev. And lucky for Mr. Flink, Zaitsev did not clear with Tass, which sends the column regularly to Moscow.

Flink, a young Republican now running for the State Assembly, is considered a comer in politics and a potential congressman. He let the Soviet agents believe they were nursing him, financing him and directing his policy — as they did at least one other New Yorker, now dead.

But they wanted their money's worth.

"They wanted to know," Flink told me some hours after Attorney General Robert Kennedy disclosed the operation the other night, "a lot about the background and internal workings of key government agencies, especially those dealing with secret industrial production and installations."

"They spent a lot of time on that."

FLINK, who learned his discipline during his Marine training, from which he was honorably discharged, cannot yet talk publicly. When he does he will bear out J. Edgar Hoover's charges that a vast section of the Soviet bloc diplomats and U.N. employees in this country are trained espionage agents.

But it can be reported, for example, that from July 1, 1960, to June 30, 1961, Soviet representatives spied by "holidaying" in at least 15 of our states.

Here are the states covered by Soviet agents: Illinois, Wisconsin, Utah, Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, Colorado, Texas (all of it), North Carolina, California, Oregon, Washington (and points en route).

East Coast states near Washington D.C., and New York City were reserved by the Soviets for "picnics" near installations. Wherever there is an event of military or scientific interest, there, too, is a "vacationing" Soviet representative.

In July 1960, the 169th Squadron of the National Guard sponsored an air show at Peoria, Ill. This included an exhibition of jet plane precision flying by the U. S. Air Force. Enthralled spectators included two "holidaying" Soviet attaches from Washington, D. C.

IN FEBRUARY 1961, two other Soviet attaches stopped in Salt Lake City long enough to attend a conference of the American

Rocket Society. In April 1961, a Soviet official, accompanied by his wife, turned up at the meetings of the Federation of American Biologists in Atlantic City.

And then there was Sergei C. Zhdanov, chief engineer of Amtorg (Soviet Purchasing agency in the U.S.). Contrary to specific restrictions of our State Department, he attended a symposium in Chicago. Here he sat in on a closed discussion of U. S. industrial defense production, at which machine tools used to make highly-classified equipment were on display.

If we don't close these Soviet outposts in the U.S., at least let us insist that the Soviets permit us to set up some throughout the U.S.S.R.

History Today

Today is Friday, Sept. 21, the 264th day of 1962. There are 101 days left in the year.

Today's highlight in history: On this day in 1777, Gen. Anthony Wayne and a detachment of Colonial troops were defeated by the British and Hessians near Paoli, Pa. The victors bayoneted many of Wayne's men after they had surrendered.

On this date: In 1799, French chemist Philippe Lebon patented a method of lighting by gas derived from wood.

In 1814, Francis Scott Key's "Star Spangled Banner" was published—in the Baltimore American Daily Advertiser.

In 1893, J. Frank Buryea drove the first gasoline-powered automobile in the United States in a demonstration at Springfield, Mass.

In 1938, a hurricane from the Caribbean swept up the Atlantic coast to take a toll of 682 lives, mainly in Connecticut, Rhode Island and Massachusetts.

In 1947, representatives of Communist parties of nine European nations met in Poland to re-establish the Communist International which had been officially dissolved in Moscow four years earlier.

Today's birthdays: Concert pianist Gyorgy Sandor is 50. Geophysicist Sir Edmund Bullard is 55.

Thought for today: Diffused knowledge immortalizes itself—Sir James Mackintosh.

ANSWERS YOUR PROBLEMS

old son came home one day and said, "I'm quitting high school to get married. My girl friend is pregnant."

Think about this before you advise kids to make the biggest decision of their lives before they are dry behind the ears.

No Answer

Dear Ann: Recently you printed a letter from a woman who said a housewife's lot is easier than her husband's because she could always "put things off."

I'd like to know how she puts off making three meals a day when her family expects to get fed. How can she put off driving her children to school and picking them up? When her mother-in-law must be taken to the dentist for an emergency extraction, how does she put THAT off?

When the children are sick, how does she put off giving them medicine every four hours? And if the doll has any bright ideas on how to put off a husband with an amorous gleam in his eye even though she is dead to the world, I'd like to have THAT information, too.

Me — I don't know any of these answers — TEXARKANA DUMB-BELL.

Dear Tex: Neither do I, so I guess that makes me a Chicago Dumbbell.

Maniacal Mate

Dear Ann: I've read many nutty letters in your column but I'll bet they made sense to the people who wrote them. That's the way this letter will be — crazy to outsiders, but I need to know the answer.

I've heard of people who have been married by proxy. Can you tell me if it's possible to divorce someone by proxy?

My husband is mean-tempered and acts like a maniac when he's drunk. I want to divorce him but I'm afraid he would kill me if he knew in advance. My only chance would be to leave town on a "visit" then have a lawyer notify him that he has been divorced.

Please don't tell me to see a marriage counselor, a clergyman or a psychiatrist. I've been to three and they agree I should throw the bum out. Thank you. —HOUSTON NAN.

Dear Nan: You need legal advice and I am not a lawyer. See one and ask about a "peace bond." No woman should live in fear of her life.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

The Doctor Says

By Dr. H. T. HYMAN

Questions And Answers

Q—My husband, who is only 41-years-old, is recovering from a coronary attack.

Our doctor has said that he will soon be able to return to our stationery store where I help him with his work. But my children and I are afraid that he is looking only on the rosy side of the picture to assure us. We know he means this for the best, but we would also like your opinion about his chances for recovery.

A—Your doctor knows the details of your husband's condition. You should accept these assurances at face value.

With increasing knowledge of coronary diseases and the introduction of new drugs to prevent blood clotting and to dissolve formed clots, the outlook has brightened considerably.

An outstanding example of recovery is that made by former President Eisenhower. And, on a broader scale, a prominent cardiologist just reported an analysis of 255 of his patients who have already survived their attacks by 10 years or longer.

You may be interested to learn, moreover, that those patients who returned to work after recovery

seemed to do better than those who retired.

Q—My 7-year-old daughter is 46 inches tall and weighs only 40 pounds. She is a happy, healthy child and has very thick, hip-length hair. When I was at a beauty shop last week, I was told that her hair is using up all her vitamins and that I should have her hair cut so she can grow and gain weight. Would you advise me to do what they say even if she is very proud of her hair and loves me to wash, comb and brush it?

A—Just when I think I've heard all the nonsense there could possibly be about vitamins, along comes your beauty shop authority on metabolism. The only damaging haircut I've ever heard about is that given by Delilah to Samson.

So, if your little girl is very proud of her hair and you don't mind washing, combing and brushing it, why don't you let matters rest as they are?

Your House Jumping? (WITH KIDS, THAT IS?)

Nothing like a bunch of teen-agers on-the-twist (or other form of rampage) to make a house jump . . . along with the nerves of their captive audience (the rest of the family!). Why not give your active youngsters a place of their own, where they and their friends can enjoy their own idea of fun . . . leaving the rest of the house (and its occupants) undisturbed. A recreation room finished off in the basement may well be the answer. The kids will love it . . . and you'll love the resulting peace and quiet upstairs. How to finance the project? We have the answer to that!

You can finance the installation of a recreation room in your home at lowest cost on a Home Mortgage Loan from us. You can pay off the loan in easy-to-budget monthly amounts out of current income.

Hints From Heloise

By HELOISE CRUSE

Dear Heloise: I put old towels between the mattress and sheets on the baby's bed to keep the plastic coating on these mattresses from making the small ones too hot.

When I buy socks for the older children, I let them choose their own—within the color range I set—THEY remember whose-are-who.

I keep a special set of washcloths in the kitchen drawer with the tea towels—just for wiping faces and hands as I have five children. I find this is a great timesaver.

If you want small children to learn not to slam screen doors, put an extra handle down low so that they might reach it.

And, dear Heloise, here is one last idea that I got from your old towel tricks... I find they make wonderful appliance covers and are much easier to keep clean than plastic ones which have to be washed by hand.

WINNIE

DEAR HELOISE: Ever use an egg slicer to slice raw mushrooms to saute? It's sure, quick and uniform.

M.F.

DEAR HELOISE: To peel a tomato, I spear it on a fork, hold it over the gas flame, and turn it gently until the skin breaks. Rinse under cold water, and the skin comes right off!

I have found that bleach when added in small quantity to the last rinse water works well on white clothes for me. It soon evaporates when the clothes are dried.

Now about that tomato... Ladies it's great! Hold it over the flame on your stove only a

minute or so. Then plop it into cold water immediately. I have found that if I want a real cold tomato for slicing... etc lay on top of lettuce, etc... that I can do the above a day ahead of time. I put the tomato back in my refrigerator and peel when ready. But best part of this method of peeling the tomato is that you don't waste any of it as you do when peeling with an ordinary paring knife. It's as perfect as a picture in an ad.

HELOISE

DEAR HELOISE: I find when I buy an inexpensive blouse that the underarm seam will often rip. Before even wearing blouses I now machine top-stitch the sleeve seam for about three or four inches each side of the side seam. This does not show and it strengthens the seam itself.

BRIDE

DEAR HELOISE: Did you know when opening a can of spaghetti, macaroni, etc., that after removing the lid it can be used to cut the contents of the food in half as it comes out of the can.

I find that after opening the can you can hit the spaghetti and when one-half falls out of the can... take the lid and slice across it, letting the spaghetti drop into the pan in which you heat it.

All you have to do is to take the half-full can and put it into your refrigerator.

This is wonderful for small families who use only half a can at a time.

San Francisco Loses More Ground In NL Pennant Race

Idle Dodgers Now Lead By 4

Pirates Edge Reds, Colts Sweep Pair

By MIKE RATHET
Associated Press Sports Writer
Plopl!
That was the sound a dismayed Dick Lemay heard in the ninth inning Thursday night as his balk helped St. Louis whip his San Francisco teammates 5-4 and drop the reeling, second-place Giants four games behind National League leading Los Angeles.

Lemay, who came on in relief for the Giants in the eighth, was touched for consecutive singles leading off the ninth, putting runners on first and third with the Giants ahead 4-3.

Bill White dug in at the plate, and Lemay went in to his windup. Plopl! The ball slipped from his grasp, dropping at his feet. The umpires ruled it a balk. Flood scored the tying run and pinch runner Mike Shannon moved to second with the potential game-winner.

Don Larsen replaced Lemay on the mound, and intentionally walked White. Ken Boyer ruined the strategy with a single that sent Shannon across.

The Giants have lost seven of their last eight games. The Dodgers, not scheduled, reduced their magic pennant-clinching number to six with nine games remaining.

Any combination of six Los Angeles victories and/or San Francisco defeats will give the Dodgers their first pennant since 1959.

Cincinnati's defending champions moved closer to elimination as Pittsburgh used an error and a two-run double by rookie Bob Bailey to come from behind and beat the Reds 4-3 with three runs in the ninth inning. Cincinnati is six games back with seven to play.

Philadelphia and Chicago split a doubleheader, the Phillies winning 3-1 before the Cubs took the nightcap 4-1. Houston defeated New York 7-2 and 5-4 in 12 innings as the Mets tied an NL record with 115 losses.

In the American League, second-place Minnesota lost to Detroit 5-1 and fell 4½ games behind the first-place New York Yankees, who were idle. Cleveland defeated Kansas City 5-2 and the Chicago White Sox downed Boston 6-4.

Bob Purkey, trying to nail his 23rd victory for the Reds, held a 3-1 lead going into the ninth, but was chased when Dick Groat singled and Bob Skinner walked. Bill Henry took over, struck out the next two batters and got Donn Clendenon to ground to third base. But Eddie Kasko let the ball get by him as a run scored and Bailey followed with his two-run double.

Rookie Dennis Bennett (8-9) won the opener for the Phillies with a five-hitter. In the nightcap, Ernie Banks scored the first Chicago run and accounted for two others with his 36th homer.

The Colts scored six unearned runs in the first game to whip the Mets' Jay Hook (8-18). Hal Smith provided the Colts with the second game triumph, hitting a three-run homer in the seventh and driving in the clincher in the 12th with a single.

WOOSTER — Tom Dahms, former Salem High grid star, will be in the starting lineup when Wooster College plays host to Ashland in its season's opener Saturday.

Lehigh Hanover's Fast Finish Wins Little Brown Jug Race

By FRITZ HOWELL
Associated Press Sports Writer
DELAWARE, Ohio (AP) — Lehigh Hanover, a \$60,000 gamble as a yearling, has proved a pretty profitable purchase.

The bay colt, under the masterful handling of 35-year-old Stanley Dancer, overcame bad racing luck and won Thursday's 17th annual Little Brown Jug for 3-year-old pacers with two great stretch drives.

The speedy son of Adios-Lucine Hanover pocketed \$27,764 for his pair of miles — the first in 1:58.45 and the second in 1:59.35 — over the lightning-fast Delaware County Fairgrounds twice-around. That boosted his 1962 earnings to \$140,500 and his 2-year total to \$191,735 for the Lehigh Stable of New Egypt N. J., owned by Dancer and three others.

The \$75,000 fixture was divided into two sections, and Lehigh Hanover came from third at the head of the stretch in the first to nip favored Coffee Break, the 2-year-old pacer of the year in 1961, by better than a length.

Johnny Simpson, three-time winning reinsman in the Jug, piloted Gamecock to victory in the 2:01.15 second stanza. Nine came back for the third heat, and it looked as if Coffee Break was going to force a fourth heat as he took the lead and held it far into the stretch.

But Lehigh Hanover, pulled up sharply when Gamecock broke in the first turn, didn't want it that way. The sterling colt couldn't get out of the fifth spot for the first three-quarters but edged up to fourth as they hit the stretch. Then he set sail and nailed Coffee Break a few feet from the finish to win by a neck. That settled it.

Cleveland Eyes Sixth Place; Clobbers Kansas City 5-2

LOS ANGELES (AP) — The Cleveland Indians took sole possession of seventh place by beating Kansas City five out of six games this month, and they have a chance to end the season in sixth place if they do well against Los Angeles.

Of the eight games left on the Cleveland schedule, seven are against the Angels, who stand third in the American League race. They go into tonight's game 7½ games behind league-leading New York and three games behind Minnesota. The Indians are half a game behind Baltimore.

Putting it the other way, that means the Angels must beat the Indians if they have any hopes of finishing high in the pennant race. So far this season, the Angels have won 7 out of 11 games from the Tribe.

Twins' Flag Chances Jolted, Lose 5-1 Decision To Tigers

By JIM HACKLEMAN
Associated Press Sports Writer

Memo to the Minnesota Twins: When you're in a pennant fight with the New York Yankees, don't give anything away. They don't.

For the second time in three games the Twins blew one to the Detroit Tigers Thursday, giving up three unearned runs in the first inning and taking a 5-1 setback.

Minnesota, a surprise challenger to the Yankees in the American League race this season, is 4½ games back in second place, with the magic number dwindled to four. Any New York victories and-or Twin defeats adding up to four and the Yankee pennants are champions again.

The Yankees, off Thursday, have eight games remaining. They open a three-game set with the White Sox at Chicago tonight, then finish up at home with two against Washington and three against Chicago.

The Twins have seven left,

three at Baltimore starting tonight, one at Cleveland and three at home against the Orioles.

Minnesota handed Detroit two unearned runs Tuesday and the Tigers hung on for a 2-1 victory.

Thursday, Vic Power's first-inning error plus key hits by Al Kaline and Norm Cash and the Twins' failure to crack through on their own opportunities doomed Minnesota.

Pedro Ramos pitched a five-hitter as Cleveland beat Kansas City 5-2 and Chicago tripped Boston 6-4 with two runs in the eighth inning.

In the National League, St. Louis' 5-4 decision over San Francisco dropped the runnerup Giants four full games behind the idle Los Angeles Dodgers; Pittsburgh nipped Cincinnati 4-3; Philadelphia and Chicago split, the Phillies winning the opener 3-1 and the Cubs taking the nightcap 4-1; and Houston beat New York's last-place Mets 7-2 and 5-4 in 12 innings, pushing the Mets to a league record-tying 115 losses.

The Indians punted Kansas City's no-walk pitcher, Bill Fischer, for nine of their hits and all five of their runs in the first five innings. The right-hander extended his major league record of consecutive innings without a base on balls to 73 but also suffered his sixth straight loss.

Jim Landis' sacrifice fly in the eighth broke a 4-4 tie between the White Sox and the Red Sox, and Chicago picked up a cushion when another run scored on Eddie Bressoud's error.

Ex-Cleveland Gridders To Face Browns

CLEVELAND (AP) — Another attendance record may be set when the Cleveland Browns meet the Washington Redskins at Municipal Stadium Sunday afternoon.

If the crowd reaches 55,000 as expected, it will be the largest ever to see a Browns-Redskins game here. The previous high was 52,936 five years ago, but most of the turnouts have been much smaller.

It will be homecoming for several Washington players who formerly were with the Browns or otherwise have Ohio connections.

Three members of the squads—halfback Bobby Mitchell, tackle Fran O'Brien and Bobby Freeman of the defensive backfield—formerly played with the Browns.

Mitchell, who starred in last week's game against the Dallas Cowboys, and O'Brien will be starters, but Freeman is doubtful because of a knee injury suffered in the Dallas game.

Allen Miller, 22-year-old rookie line backer, was a guard at Ohio University for two years and played on the unbeaten 1960 team. He played high school football in the little Ohio towns of Canal Winchester and Groveport.

Patton Seeks Golf Title In 12th Try

PINEHURST, N.C. (AP)—Billy Joe Patton, 40, trying for the 12th time to win his first U.S. Amateur Golf Championship, attempts another step toward the coveted title today, with three youthful contenders.

Labron Harris Jr., in his third national amateur, and two first-timers, Charles Coody and Downing Gray, are the other survivors from the record entry of 2,000 men who started out full of hope earlier this month in sectional qualifying play.

Thirty-six-hole semifinal competition was scheduled to begin with

Patton meeting Harris and Gray facing Coody. The winners will meet in a 36-hole championship match Saturday, when former President Eisenhower, a golfing companion of Patton at the Augusta National Club, joins the gallery.

Each semifinalist scored two victories Thursday over the demanding 7,051-yard No. 2 course at the Pinehurst Country Club.

Patton, a Morganton, N.C., lumber broker and three-time Walker Cup player, had the shortest route

to the semifinals, winning his six matches in 92 holes while shooting 12 over par golf.

Harris, 20, an Oklahoma State student from Stillwater, Okla., has played 103 holes, four of them 2 and 1 matches, and shot nine over par.

Coody, a husky 25-year-old Air Force lieutenant from Stamford, Tex., has played closest to par, four over, in going 94 holes. Gray, 24, an insurance man from Pensacola, Fla., has traveled 104 holes and been 17 over par. Twice

he's won on the 18th hole and once had to travel 20.

Five New Teachers On Staff Of St. Paul Catholic School

By VIRGINIA HURRAY

Five of the 12 teachers on the faculty at St. Paul Catholic School are new this autumn.

Three of the new teachers are nuns, members of the Sisters of the Holy Humility of Mary, a religious order which has staffed the school for more than 50 years. The other new faculty members are John Daliman of Struthers, who will assume sixth grade teaching duties Monday, and Miss Patricia Judge of Salem.

The nuns newly assigned to St.

Paul are Sister M. Brigetta, a primary teacher, and Sisters M. Claude and Mary Louis, teachers of intermediate grades.

Sister Brigetta is a native of Cleveland and grew up there. Holder of a bachelor of science in education degree from St. John's College, Cleveland, she is working on her master's degree at Duquesne University, Pittsburgh. Before coming here, she taught in Blessed Sacrament School, Cleveland.

Sister Claude, also a Cleveland native and holder of a B.S. of E. degree from St. John's, expects to complete work for her master's degree at Xavier University, Cincinnati, next summer. She previously was stationed at St. James School, Lakewood.

Sister Mary Louis' teaching experience includes work with the Sioux Indians of South Dakota. In the early years of her career, she was one of the "blue" nuns who assisted Rev. Leo Cunningham, a Jesuit priest, in establishing small parish schools for the Indian children, enabling them to attend classes near their parents. Previously there had been only one large central school on the vast reservation.

"Living on the Dakota Sioux reservation with no electricity and with the nearest telephone a half mile away, I developed a genuine appreciation for what our forebears underwent to advance living conditions in this nation," declares Sister Mary Louis, who attended John Carroll and Western Reserve Universities and received her B. S. of E. degree from Kent State University. Before coming to Salem, she taught at St. Paul's School, Canton.

Sister Benedicta, principal, announced today that Daliman, holder of a bachelor of arts degree from the University of South Dakota is replacing Mrs. Patricia Nezbeth of Sebring, who is re-

were similar to those Kennedy used in a Sept. 4 statement on Cuba. The resolution was welcomed by Secretary of State Dean Rusk.

Rusk said in testimony made public Thursday by the Senate committees that it has been made clear if the Cubans or Soviet personnel in Cuba "attempted to move arms illicitly into other Latin American countries, or if any elements of armed forces embarked from Cuba for any neighboring countries, the armed forces of the United States would be used to intercept such traffic."

He also said that "of course" any attack on the U.S. base at Guantanamo, Cuba, would be met with necessary U.S. force.

During Senate debate on the resolution Thursday, Sen. Joseph S. Clark Jr., D-Pa., said, "This is no time for war talk . . . this is no time for a blockade . . . no time for careless old men to send young men to war."

Sen. Winston L. Prouty, R-Vt., who cast the lone Senate vote against the resolution, complained it was not strong enough. "I protest its every line," he said. "I object to its every paragraph. And I oppose it in its entirety."

Prouty had proposed that Congress declare the President has authority to use armed forces "whenever and wherever" he deems their use essential to U.S. security.

the worst shelling. While the President requested \$1.25 billion, the House approved \$775 million.

Thick slices were lopped off the requests for development grants, military assistance, the alliance for progress and the President's contingency fund.

The administration counterattack begins today when Secretary of State Dean Rusk testifies behind closed doors to the Senate Appropriations Committee.

House leaders steered clear while the three Cuban amendments were rammed through Thursday night. They evidently hope the Senate will strike them or at least tone them down.

The most restrictive amendment was offered by Rep. Walter Rogers, D-Tex. It would deny foreign aid to any country whose ships carry goods of any kind to Cuba.

outgoing Gov. David L. Lawrence; Richardson Dilworth, the former Philadelphia mayor who is in a tough race to succeed Lawrence, and Joseph S. Clark, trying for another term in the U.S. Senate.

Following the Democratic dinner, the cash customers filed into the dirt-floored arena where the state dairy exposition had ended just a few hours before, leaving behind some of the aroma.

Picking up in his speech a theme of his campaign for the White House in 1960, the Chief Executive said of the Democrats "We must be committed, as we have in the past, to getting this country moving."

While he isn't on the ballot this time, Kennedy said he holds as President a great responsibility for the conduct of the nation's campaign for progress.

"And one fact," he said, "is clear beyond dispute: That this country requires, if it is to move ahead, a progressive Congress—in short, a Democratic House and a Democratic Senate."

The House and Senate are Democratic now, and Republicans contend they have a pretty sorry record. Kennedy conceded that the 87th Congress hasn't measured up to his hopes, but he said it has a record of progress and compassion unmatched in recent times.

And he wants more Democrats in Congress, he said, because in spite of advances he said have been marked up during his administration, much more needs to be done.

LISBON — Donald E. Day, state safety and sanitary engineer from Columbus, will be guest speaker at a meeting Monday at 1:30 p.m. in village hall, according to Harry Stockdale, county sanitarian.

The meeting was set up by the Columbiana County Health Department for individuals who clean and repair septic tanks and also all volunteer fire departments in the county.

The group will discuss safety measure that are necessary to cope with deadly gas which sometimes forms in septic tanks. It resulted in the death of four persons in East Liverpool last Aug. 2.

ganzations."

The present two-year contracts were negotiated in Cleveland in November, 1960, providing a 3-cent hourly increase effective last Dec. 1 in both the dinnerware and chinaware sections.

The pact with the United States Pottery Association, covering 4,900 employees in 9 dinnerware plants in Ohio, West Virginia and Pennsylvania, provided for a "package" pay increase of more than 8 cents an hour.

In addition to the three-cent hourly boost, the contract provided for a 5-cent hourly payment to the health and welfare and pension fund.

The agreement between the IBOP and USPA covered employees of the Salem China Co.; Homer Laughlin China Co., Edwin M. Knowles China Co., Taylor, Smith and Taylor Co., Harker Pottery Co., and Hall China Co. in the East Liverpool area; Royal China Co. and French-Saxon China Co. in Sebring, and the Canonsburg Pottery Co. in Cannonsburg, Pa.

The USPA estimated the two-year contract would cost the manufacturers an additional \$750,000 yearly.

The chinaware pact covered an estimated 1,800 IBOP members employed at the Sterling China Co. and Wellsville China Co. in Wellsville; The Walker China Co. of Bedford, the Buffalo China Co. in Buffalo, N.Y., the Mayer China Co. of Beaver Falls, and the Jackson China Co. of Falls Creek, Pa.

In addition to the hourly increase, the chinaware manufacturers agreed to assume the cost of a health and welfare program by contributing \$9.67 per month per employee. To launch a pension plan for their employees, the six companies also agreed to contribute one and a half cents per dozen of ware shipped effective Jan. 1, 1961.

Matter of Fact

Not only were lotteries not banned in colonial America but they were even considered a vital economic measure. Lotteries were used to raise money for public improvements and to assist in financing college. Among others, Columbia, Dartmouth and Williams were financed in this way.

Board Clarifies Procedure on Absentee Ballots

The County Election Board at East Liverpool today advised voters it is prohibited by law from accepting applications for civilian absentee and disabled voters' ballots before Oct. 7.

Any applications received prior to Oct. 7 must be rejected, Frank R. O'Hanlon, clerk, said, explaining the board can mail the application forms but they must not be returned until 30 days prior to the Nov. 6 general election.

O'Hanlon pointed out the application forms specifically outline the dates in heavy black type at the top of the blank. Form letters which the board includes with the application blanks also list the dates the ballots will be available and the deadline for returning them.

Absent voters' ballots will be available from Oct. 7 until 4 p.m. Nov. 1 for those who will be outside the county and more than 10 miles from their home precinct on election day. The ballots must be returned to the Election Board by noon Friday Nov. 2.

The same dates apply for the disabled voters' ballots issued to those who will be unable to reach the precinct voting place because of illness or disability. The application form must be accompanied by a certificate from a physician.
